SUMMER 2023

JULY 10TH - JULY 14TH

FELI is a free Professional Development opportunity provided by SDCCE focused on student retention using an inside-out approach. The FELI is an 40-hour transformative workshop involving more than fifty exercises and activities. These dynamic activities draw on core ACE (Academy of College Excellence) curriculum centered around communication, working styles, leadership techniques, and building social capital in both your professional and personal life.

"FELI was such an exceptional way to learn and grow in my self-awareness and my work style, especially - I refer back to the experience regularly, and would love to have a reminder/refresher of some of those guiding principles and especially how they might be more relevant in the post-pandemic workspace." - Neill K

"FELI can and will change the tenor of the institution for the better if everyone attends. Be part of progress! We need you." - Rachel R

"The FELI Training was a very vulnerable class but I appreciate that because it was so very meaningful. By the end of the week the group felt very connected and it was so refreshing to be in a work environment and be able to see each other as humans with needs and emotions, rather than just co-workers. The "working type" quiz and groups were mind-blowing for me and I now share my findings with all of my students and encourage them to take the quiz. I was surprised how many of us had not tapped into many of the subjects before and I really think it helped us to find areas with triggers and to really grow!" -Megan T (SDUSD AE)
