

Requirement	Additional Information
1. Physical and Health History Form * DO NOT COMPLETE IN ADVANCE: If you receive a seat in class, you will receive this information directly by e-mail.	a. The History and Physical must be completed within 6 months prior to program start date. b. The Provider's NPI number and signature must be included on the form.
AND	
2. Influenza Vaccine	a. Documentation of a current flu vaccination is required during flu season (October-April).
AND	
3. TB Screening-Two-step TST:	a. The first TST is placed and then a reading is obtained within 48-72 hours. If negative, a second TST is placed 7 days after the first TST was READ. The second TST reading is obtained within 48-72 hours after placement. b. The last TST must be completed within 6 months prior to program start date.
OR	
4. Chest X-ray:	a. If you have a history of positive TST you will need to obtain a chest x-ray for your TB clearance. b. Your chest x-ray must be dated within 6 months prior to your clearance due date and must include a written report indicating no active disease is present.
OR	
5. Quantiferon TB Gold or TSpot:	a. In some cases, you may also provide TB clearance through use of positive reactor screenings such as the Quantiferon TB Gold or T-Spot screenings. b. Quantiferon TB Gold or T-spot screenings must be negative for the disease and be dated within 6 months prior to program start date.
AND	
6. COVID-19 Vaccine:	Must upload complete proof of vaccination
AND	
7. Measles, mumps, and rubella (MMR) shots or Positive Titers	a. 2 doses of vaccine dated at least 30 days apart OR a positive titer for Measles, Mumps & Rubella.
AND	
8. Varicella Shots or Positive Titers	a. 2 doses of vaccine dated at least 30 days apart OR a positive titer for Varicella.
AND	
9. Hepatitis B Positive Titers	a. A positive titer is required. If your titer is negative, you will need to start the vaccination series. The series consists of 3 doses of vaccine. Dose 2 should be 30 days after dose 1. Dose 3 should be 5 months after dose 2. A repeat titer must be completed 30 days after your last dose.
AND	
10. Tdap (Tetanus, Diphtheria & Acellular Pertussis)	a. Must be within 10 years. If at any point in the class it passes that 10-year period, you must get the vaccine.
