Operational Definitions
Enrollment, Headcount, and Student Outcomes Data

Headcount
The individual count of students, or unduplicated headcount. Cancelled sections and students with less than one attendance hour are excluded. Apprenticeship, fee-based sections, and contract sections are excluded.

FTEF
The total number of adjusted full-time equivalent faculty assigned. Apprenticeship, fee-based sections, and contract sections are excluded. F-Factor is not included.

FTES
The total number of full-time eequivalent students enrolled. Apprenticeship, fee-based sections, and contract sections are excluded. F-Factor is not included.

Success
The percent of students who receive a passing grade at the end of the term (A, B, C, or SP).

Retention
The percent of students who receive a valid grade at the end of the term. It includes students who receive an "I" and return the next time the class was offered receiving a valid grade at their return.

Awards
Depending upon the program reported, course awards may comprise course certificates of completion, while program awards may comprise program certificates of completion, GED certificates, and high school diplomas.

Enrollment
The number of seats enrolled, or duplicated headcount. Cancelled, apprenticship, fee-based, and contract sections are excluded. Drops with 0 attendance hours are excluded.

Sections
The count of classes available for the course.

Productivity
The ratio of FTES by FTEF.

Success Alternative
The percent of students who receive a "Satisfied" indication at the end of the class.

Retention Alternative
The percent of students who remained at the end of the term.

Fall-To-Spring Retention
The number of students who were validly enrolled in fall and in the spring of the same academic year.

Disproportionate Impact
Occurs when a subset of students experiences lower outcomes compared to the total student population. Groups were highlighted for DI if flags were found consecutively in the last 4 years, in the most recent academic year in three or more metrics, or if the count of flags was in the top 5 instances of the program.
